Subject: ERO Bulletin 2012-05: EIN Finder Update (Login ID, password)

We are receiving many questions about the login procedure, specifically the login ID after the most recent ERO Bulletin on the EIN Finder. Many states did not receive the IRS Depot laptops so they understandably do not know the password. If this is your only question, then please continue to go to your State Technology Specialist (TCS) or taxaidetech@aarp.org for information on how to obtain the password.

The logon ID is your state followed by "ERO" and the only states that should use numbers are those that have multiple split-states, such as FL1, FL2, TX1, TX2, etc.

The following list of logon IDs will be posted on the Volunteer ShareNet in the ERO Bulletins folder, please use the appropriate one for your state/split state.
